BITESIZE EDUCATION READING LIBRARY

GETTING STARTED

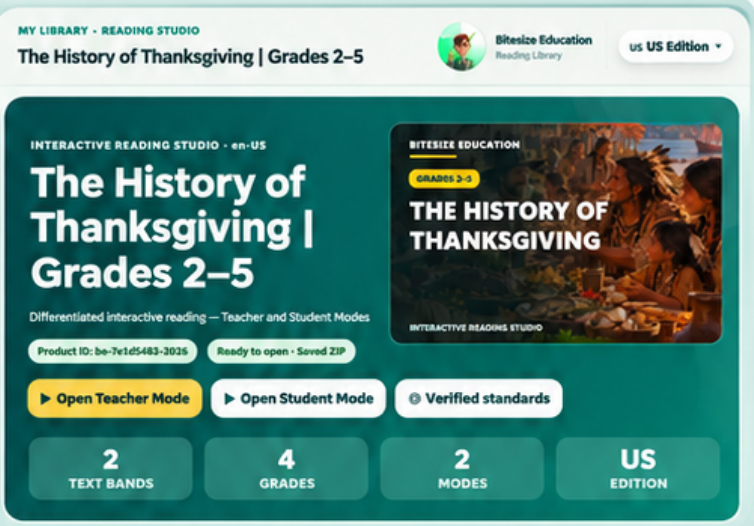

Poster 1 of 5: Download, Extract & Launch

Windows & Chromebooks

1. Download Reading Library

- Download the Reading Library ZIP included with your purchased Bitesize Education resource.
- Save the ZIP to your Downloads folder.

Important: Extract the Reading Library ZIP. Later, add your resource ZIPs inside the Library.

Reading Library home screen

2. Extract the ZIP

Windows

- Right-click the ZIP.
- Choose “Extract All”.
- Open the extracted folder called “Reading Library Files”.

Chromebooks

- Open the Files app.
- Find the ZIP in Downloads.
- Copy the full “Reading Library Files” folder into My files.
- Open the copied folder.

3. Launch Reading Library

- Inside the folder, open “START_READING_LIBRARY.html”.
- Use Google Chrome or Microsoft Edge.
- Choose US or UK English if available.

Top Tips

- Keep all Library files together.
- Do not rename or move individual system files.
- Use the same folder and browser profile each time.

BUILD YOUR READING LIBRARY

Poster 2 of 5: Add & Open Resources

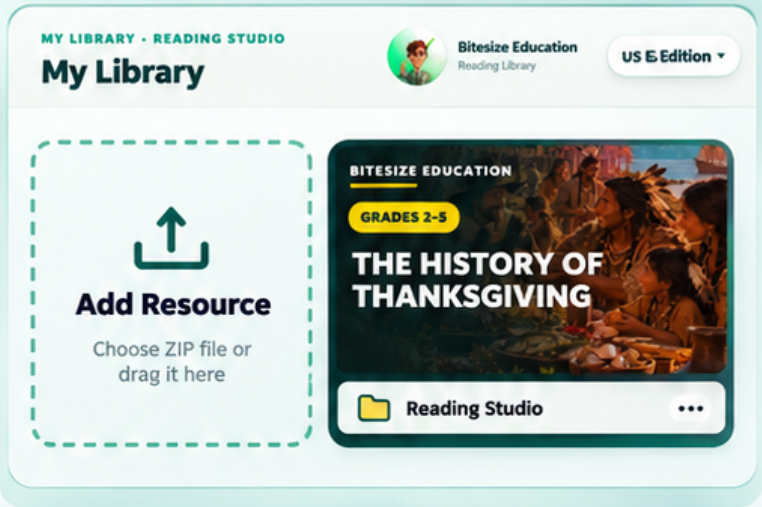

All resource types

1. Add a Resource ZIP

- Open Reading Library.
- Select “Add Resource”.
- Click “Choose ZIP file” or drag the ZIP into the import area.
- Select your purchased Bitesize Education resource ZIP.
- Wait while Reading Library imports the resource.

Important: Add the purchased resource ZIP to Reading Library. Usually, do not extract the resource ZIP first.

Import resources into My Library

2. Find it in My Library

My Library

- Open “My Library” after the import finishes.
- Look for the new resource card.
- Your resources stay organised in one place.

What you may see

- Reading Studio
- Digital Escape Rooms
- Read to Escape
- Digital Main Idea

- Different products may open in slightly different ways.

3. Open and Explore

- Click the resource card to open it.
- Use Teacher Mode, Student Mode or the main activity, depending on the product.
- Reading Studio resources open directly from the imported ZIP.
- Follow the resource buttons to print, share or explore more features.

Older packs may use a legacy import option if the product instructions say so.

Top Tips

- Import each resource once.
- Keep your original purchase ZIPs backed up.
- Check the resource instructions for product-specific printing or sharing steps.

EXPLORE YOUR READING RESOURCES

Poster 3 of 5: Choose the Right Experience

Example resources

Reading Studio

Interactive reading comprehension with differentiated texts and teaching tools.

- Two **reading levels** (Grades 2–3 and Grades 4–5)
- **Teacher Mode** and **Student Mode**
- Comprehension questions, vocabulary and reading support
- Highlight, take notes and adjust text settings
- **Print Centre** with workbooks and answer keys

Digital Escape Rooms

Turn reading comprehension into an interactive challenge, solving puzzles to progress through the adventure.

- Find the **main idea** and strongest supporting details
- Use **evidence** from the text
- **Self-checking** fun with hints and instant feedback
- Unlock the next location and keep pupils motivated

Read to Escape

A story-based digital guided reading adventure with meaningful choices and deeper thinking.

- **Read, choose** and **explore** different routes
- **Practise vocabulary,** inference, retrieval and evidence
- **Replayable** with randomised questions
- **Teacher** assessment, pupil reports and CSV export

Reading Comprehension

Flexible topic-based comprehension packs for print or digital use.

- Rich texts with skill-based questions and answers
- **Audio** support to help children access the text
- Ideal for whole-class work, guided reading or independent practice
- Print and **digital** options

All resources help to:

- Build reading comprehension
- Develop essential reading skills
- Support whole-class and independent learning
- Printable resources

PRINT, SHARE & EXTEND LEARNING

Poster 4 of 5: Use Printables, Pupil Sharing and Extra Support

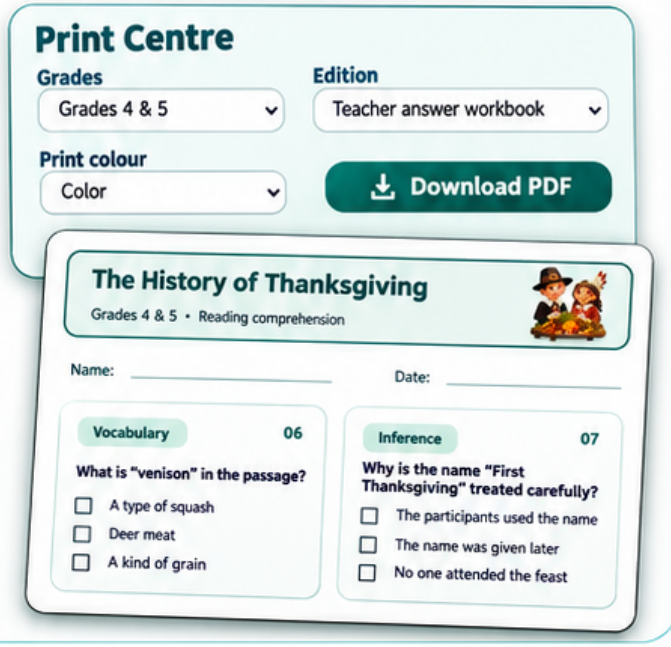

Teacher guide

1. Print your resources

Many Bitesize Education resources include printable materials.

1. Open the resource and look for **Print Centre** or print buttons.
2. Choose the grade band, edition and print colour where available.
3. Select pupil workbook, teacher answers or other printable materials.
4. Download the PDF and print or save as PDF.

Reading Studio includes ready-made printable workbooks and answer keys.

2. Share with pupils

Use resources for teacher-led lessons or pupil-independent learning.

Teacher-led use

- Open the resource on your teacher computer.
- Display it on a board or screen.
- Model reading, questions and discussion together.

Pupil-independent use

- Download or generate the pupil-friendly version.
- Save it in a secure school-approved location.
- Share it through Google Classroom, Teams or your school platform.
- Pupils open the file in a compatible browser when required.

Share pupil versions only — not Teacher Master files.

3. Extend learning

Some resources include extra links and support features.

- **Educational YouTube links:** These appear in different places depending on the resource. Look for buttons such as **Watch & Reinforce**, **Related Videos** or in-resource links.
- **Teacher checks first:** Review videos before sharing and follow your school's internet safety rules.
- **Extra support:** Many resources also include read-aloud tools, hints, feedback or printable extras.

Quick reminders

- Windows and Chromebooks
- Chrome or Edge recommended
- Printable resources
- Whole-class and independent learning
